

PRESS RELEASE  
Avignon, .... 2022

## Découvertes en Vallée du Rhône is back for its 12th edition in April 2023

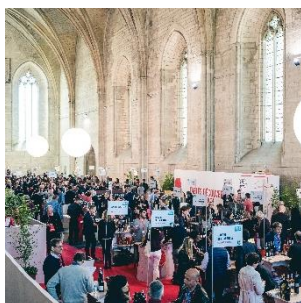

***Découvertes en Vallée du Rhône is an unmissable trade fair and event for wine trade professionals. Its new edition, organized by Inter Rhône, will take place from Monday 3rd to Thursday 6<sup>th</sup> of April 2023.***

This year again, the show will bring together **wine professionals and media from all over the world**. All professionals in the sector (wine merchants, sommeliers, wholesalers, sales agents, journalists, importers and restaurant and hotel owners) from **more than 40 countries** will be invited to (re)discover the richness and diversity of the Rhône Valley Vineyards as well as the know-how of the men and women of this territory. A large-scale event and a unique moment that offers the opportunity for the exhibitors (more than 500 this year) to promote their AOC wines on **dedicated stands**, during **master classes** or on **“Open Tasting Tables”**.

A bi-annual event, ***Découvertes en Vallée du Rhône*** returns in 2023 for its 12th edition and reverts to its initial rhythm of being held on odd years (which had been disrupted by Covid) in order to alternate with other national fairs. This year the wine fair will start in Ampuis on Monday April 3rd and will follow the Rhône to end in Avignon, Capital of the Côtes du Rhône, on Thursday April 6th.

**Registration is already open for visitors.** You can find all the additional information concerning ***Découvertes en Vallée du Rhône 2023*** on the link below:
